# Pierre-O. Goffard

*Post-Doc in applied mathematics*

*Brussels, Belgium*
*☎ +33 674 293 348*
*✉ pierre.olivier.goffard@gmail.com*
*pierre-olivier.goffard.me*
*27 years old*

## Professional experience

Since November 2015 — **Post-Doctoral fellow**, *Université Libre de Bruxelles*, Brussels, Belgium.

Aug.-November 2015 — **Post-Doctoral fellow**, *Aarhus university*, Aarhus, Denmark.

2011–2015 — **Ph.D. Student and junior actuary**, *Aix-Marseille university and AXA France (french partnership named convention CIFRE)*, Marseille, France.

April - September 2011 — **Project Manager (intern)**, *AXA France*, Marseille, France.
- Optimization of the aggregation procedure of the AXA France life insurance portfolio of savings contracts.

May - July 2010 — **Project Manager Assistant (intern)**, *IFREMER*, Brest, France.
- Development of composite indicators to help decision making

July - August 2009 — **Marketing Assistant (intern)**, *Crédit Mutuel de Bretagne*, Brest, France.
- Various activities (computer science and basic statistical analysis)

## Education

Since 2014 — **Master of science (M.Sc.)**, *ISFA*, Lyon, France.
- Major: Financial and actuarial sciences
- French actuary diploma (correspondence courses)

2011–2015 — **Ph.D. in applied mathematics**, *Aix-Marseille University and AXA France (french partnership named convention CIFRE)*, Marseille, France.
Polynomial approximations of probability density function and applications to insurance.
Advisors: Denys Pommeret and Stephane Loisel.

2008–2011 — **Master of Science (M. Sc.)**, *ENSAI*, Rennes, France.
- Major: Advanced Statistical Engineering
- Additional training (during the $3^{rd}$ year, 2010-2011): Master of statistics and econometrics at the *University of Rennes 1*, focused on scientific research, in tandem with ENSAI engineering degree

2006–2008 — **Classes Préparatoires**, *Dupuy de Lôme High School*, Lorient, *MP*.
2 years of intensive training in Math, Physics and Chemistry.

## Skills

Technical — Probability and statistics for finance and insurance (or anything else)

IT — R Studio, SAS, Mathematica, Matlab, Java, HTML, CSS, Ruby, Markdown, $Latex$

Languages — French *(mother tongue)*, English *(full professional proficiency)*, Spanish *(notions)*

## Research Expertise

**Numerical inversion of Laplace transform**, *I work out a numerical method to recover probability density function from the knowledge of their Laplace transform. The desired PDF takes the form of a polynomial expansion. The method extends naturally within a multi-dimensional context and the approximation formula can turn into a nonparametric statistical estimator of the PDF when data are available .*

**Ruin theory**, *In ruin theory, we model the financial reserves of a non life insurance company using stocastic processes. We aim at computing the probability that the financial reserves falls below $0$. This quantity, aka probability of ruin, is tricky to capture and motivates the use of numerical methods such as those involving Laplace transform inversion.*

## Teaching experience

2015 **Teaching assistant**, *Aarhus University*, Marseille, France.
Bachelor in various fields
- Introduction to calculus (undergraduate class, 21h)

2012–2014 **Teaching assistant**, *Aix-Marseille University*, Marseille, France.
Master in actuarial science
- Introduction to ruin theory (graduate class, 6h)

2013–2014 **Teaching assistant**, *ENSAI*, Rennes, France.
Master in statistical engineering
- Introduction to ruin theory (graduate class, 6h)

2012–2013 **Teaching assistant**, *Aix-Marseille University*, Marseille, France.
Bachelor of mathematics applied to social science
- Advanced probability and statistics (undergraduate class, 30h)

2011–2012 **Teaching assistant**, *Aix-Marseille University*, Marseille, France.
Bachelor of Biology
- Introduction to statistical analysis (undergraduate class, 30h)

## Publications

### Accepted/Published

2015 **P.O. Goffard & Xavier Guerrault**, *Is it optimal to group policyholders by age, gender, and seniority for BEL computations based on model points?*, European Actuarial Journal.

2015 **P.O. Goffard, Stephane Loisel & Denys Pommeret**, *A polynomial expansion to approximate the ultimate ruin probability in the compound Poisson ruin model*, Journal of Computational and Applied Mathematics.

2015 **P.O. Goffard, Stephane Loisel & Denys Pommeret**, *Polynomial approximations for bivariate aggregate claims amount probability distributions*, Methodology and Computing in Applied Probability.

### Submitted/under revision

## Selected communications

UK 2015 **CASS Business School Seminar**, *London*.

Denmark 2015 **Thiele Seminar**, *Aarhus*.

France 2015 **Université d'été de l'institut des actuaires**, *Brest*.

France 2015 **PhD Thesis oral defense**, *Marseille*.

UK 2015 $19^{th}$ **International Congress on insurance, mathematics, and economics**, *Liverpool*.

France 2014 $46^{ème}$ **journées de statistique**, *Rennes*.

Germany 2013 **Conference on Advances in Financial and Insurance Risk Manangement**, *Munich*.

France 2013 $5^{ème}$ **Rencontre des Jeunes Statisticiens**, *Aussois*.

France 2013 $45^{ème}$ **journées de statistique**, *Toulouse*.

Switzerland 2013 **Perspective on Actuarial Risks in Talks of Young Researchers**, *Ascona*.

## Refereing activities

**Methodology and Computing in Applied Probability** , *MCAP*.

## Hobbies

Music Campfire guitar player

Sports Surf, windsurf, soccer
